FLORENCE

SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

NOBODY'S CHILD.

Alone in the dreary, pitiless street,
With my torn old dress and bare, cold feet,
All day I've wandered to and fro,
Hungry and shivering, and nowhere to go:
The night is coming on in darkness and dread,
And the chill rain beating upon my bare head;
Oh! why does the wind blow upon me so wild,
Is it because I am nobody's child?

Just over the way there's a flood of light,
And warmth and beauty and all things bright;
Beautiful children in robes so fair,
Are carolling songs in rapture there
I wonder if they, in their blissful glee,
Would pity a poor little beggar like me,
Wandering alone in the merciless street,
Naked and shivering, and nothing to eat?

Oh! what shall I do when the night comes down
In its terrible blackness over the town?
Shall I lay down 'neath the angry sky,
On the cold, hard pavement, stone to die?
When the beautiful children their prayers have said,
And their mammas have tucked them up snugly in bed.
No dear mother upon me ever smiled;
Why is it I wonder? I'm nobody's child!

No father, no mother, no sister—not one
In all the world loves me; e'en the little dogs run
When I wander too near them; 'tis wondorous to see
How everything shrinks from a beggar like me!
Perhaps 'tis a dream; but, some times when I lie
Gazing far up in the dark blue sky,
Watching for hours some large, bright star,
I fancy the beautiful gates are ajar.

And a ghost of white-robed, nameless things
Come fluttering o'er me in gilded wings;
A hand that is strangely soft and fair
Caresses gently my tangled hair,
And a voice like the carol of some wild bird—
The sweetest voice that ever was heard—
Calls me many a pet name,
Till my heart and spirit are all aflame;

And tells me of such unbounded love,
And bids me come up to their home above;
They look at me with their soft sweet eyes,
Like gems that deck the azure skies,
And it seems to me, out of the dreary night,
I am going up to that world of light,
And away from the hunger and storms so wild
I am sure I shall then be somebody's child?

DEAF SMITH, THE TEXAN SPY.

Despite the cloud which hangs over the closing days of Sam. Houston's life, I have always entertained a strong admiration for the hero of San Jacinto. I am fully conscious of his weaknesses, some of which were quite glaring, but he had a certain pluck—a Jacksonian stubbornness—which commanded the respect of even his enemies.

There is an incident of Sam. Houston's career which is not generally known, but which brings out as prominently as any act of his the sterling courage to which I refer, and at the same time brings into notice one of the most extraordinary men of whom I have ever heard—that is, the individual known as Deaf Smith, the Texan Spy, and intimate friend of Sam Houston.

At the time Texas succeeded in establishing her independence, the Constitution provided that the city of Austin should be the permanent capital, where the public archives were to be kept; but the proviso was inserted, giving the President discretionary power to remove them temporarily to some safe point in case of danger from the inroads of a foreign enemy, or the power of a sudden insurrection.

About two years after the Texan revolution, the warlike Comanches became so daring as to commit several outrages within sight of the capital itself, whereupon Houston considered this condition of matters warranted his availing himself of the provisions of the Constitution already mentioned.

He resided at this time at Washington, on the Brazos, from which he dispatched a messenger, with an order commanding his subordinate functionaries to send the State Records to that place, which he announced to be the seat of government *pro tempore*.

This produced the most intense excitement in Austin. The hotel keepers, groceries, boarding houses and gambling saloons foresaw irretrievable ruin. They gathered together and denounced the proposed outrage. Gradually the mutterings took shape, until, despite the constitutional warranty for the step, it was resolved that the thing should not be done.

A mass meeting was called of the citizens and farmers of the neighborhood, and the most fiery and incendiary speeches were made. When the feelings of all were worked up to the proper pitch, it was unanimously resolved to prevent the execution of the mandate by armed resistance.

A company of armed men were organized on the spot. At their head was placed Colonel Morton, one of the most noted duelists in the Republic. He had achieved quite a fame during the war just closed, and was unquestionably a brave man, and as unprincipled as he was desperate. He was a fellow of no little conceit, and it was with no little pride that he took charge of the men, who unanimously called upon him to be their leader.

So noted, indeed, was Colonel Morton that a great many were convinced that when General Houston learned that he headed this determined band, he would hasten to retract his ground and recall the offending command. But they mistook the mettal of the old hero.

Colonel Morton puffed up with his brief authority declared that if the President did succeed in removing the records by the power of overwhelmning numbers, he would hunt him down like a wolf, and slay him wherever he found him, whether on the streets or in bed. He went so far even as to send him a letter to that effect, and here is the indentical answer he received:

If the people of Austin do not send the archives I shall instantly come and take them, and if Colonel Morton can kill me he is welcome to my ear cap. SAM HOUSTON.

On the reception of this answer the excitement became greater than ever. The guard was doubled around the statehouse, and picked sentinels were stationed along the road to the capital, the military paraded the streets from morning til' night, and a caucus of the ring-leaders was held in the city hall. Everything threatened a coming storm.

Thus matters stood for several days, when the caucus at the city hall was startled by the sudden arrival of a stranger among them.

He did not knock at the door nor attempt to seek admission there, but climbed, unnoticed, with the celerity of a monkey, a small oak which grew beside the wall, and without a word of warning sprang through a lofty window, and landed in the very room where the astonished caucus were congregated.

The stranger was clad in buckskin, carried a long and heavy rifle in his hand, wore at the bottom of his suspender an immense bowie-knife, and held in his leathern belt a couple of enormous pistols. He was thin, tall and straight as an arrow, as lithe and supple as a panther, with a swarthy complexion, long, jet black hair, a rigid, iron-like countenance, eyes of glittering blackness, and as piercing as the point of a stiletto.

His sudden appearance among them so startled them that they unconciously grasped their arms.

"Who are you that thus comes among gentlemen uninvited?" thundered Colonel Morton, staring ferociously at him.

The stranger turned his black eyes upon him, and stared at him, but the only motion he made was by placing his finger upon his lips.

"Who are you? Speak, or I will run you through," shouted Morton, driven to fury by the cool, contemptuous gaze of the other, who now took his finger from his lip and placed it on his knife handle.

The exasperated Colonel now drew his dagger, and was advancing upon the stranger, when several interposed and held him back.

"Let him alone, Morton. Don't you see he is crazy?"

At this juncture Judge Webb stepped forward and spoke to the stranger in a kindly, respectful manner:

"My good friend, I suppose you have made a mistake. This is a private meeting, where none but members are admitted."

The stranger did not seem to understand the words, but he did the conciliatory manner. His iron features relaxed somewhat, and stepping to a side table where there were implements for writing, he took a pen and rapidly traced the words, "I am deaf!"

He then held up the paper before the spectators, as a sort of a natural apology for his seeming discourtesy.

Judge Webb then took up the pen wrote:

"Will you be obliging enough to inform us what your business is with this meeting?"

The stranger answered this question by handing a letter to the Judge, whose superscription was, "To the Citizens of Austin." The seal was broken and it was read aloud:

FELLOW CITIZENS:—Though in error, and deceived by the arts of traitors, I will give you three more days to decide whether you will surrender the public archives. At the end of that time, you will please let me know your decision. SAM HOUSTON.

After the letter was read, the deaf man waited a moment or two for a reply and then turned to leave the hall. At this juncture Colonel Morton, interposing with a lowering brow, beckoned him to the table. The stranger obeyed, when Morton wrote:

"You were brave enough to insult me by your threatening looks ten minutes ago—are you brave enough now to give me satisfaction?"

The stranger instantly penned the reply:

"I am at your service."

The Colonel again wrote:

"Who will be your second?"

This was the answer:

"I am too generous to seek an advantage, and too brave to fear any on the part of others; therefore, I never need the aid of a second."

Morton wrote:

"Name your terms."

The stranger wrote, without a seconds hesitation:

"Time, sunset this evening; place, the left bank of the Color do, opposite Austin; weapons, rifles; distance a hundred yards. Do not fail to be in time."

The last sentence was not calculated to soothe the feelings of the irritated Colonel, and he compressed his lips as he read it.

The next moment the stranger strode across the floor and disappeared through the window in the same manner he entered.

"Is it possible, Colonel Morton, that you intend to fight that man?" exclaimed Judge Webb. "He is a mute, if not a maniac. Such a meeting I fear will tarnish the lustre of your laurels."

"You are mistaken," answered Morton with a smile; "that mute is a hero whose fame stands in the record of a dozen battles, and nearly as many bloody duels. Besides, he is the favorite emissary and bosom friend of Houston. If I have the good fortune to kill him, I think the President will retract his vow against venturing any more on the field of honor."

"You know the man, then? Who is he?" asked several.

"Deaf Smith."

"Impossible! That cannot be! Deaf Smith was slain at San Jacinto," replied Judge Webb.

"There again your honor is mistaken," smiled Morton. "The story of Smith's death was a mere fiction, gotten up by Houston himself for the purpose of saving the life of his favorite from the vengeance of several Texans, on whose conduct he had acted the part of a spy. I learned the artifice over a year ago."

"Then you are a madman yourself, Colonel. Deaf Smith was never known to miss his mark. He has been known to bring down ravens in their flight, and has picked off Comanches and Mexicans at the distance of two hundred and fifty yards."

"The thing is settled. I fancy I can do a little of that business myself."

"But, for God's sake," persisted Judge Webb, becoming excited, "I don't want you to be murdered."

"Who is going to be?" asked Colonel Morton, as he smoked his cigar and smiled in his usual way.

"Why you, if you undertake to fight Deaf Smith."

"The thing is all arranged, as I said a moment ago, and I wouldn't back out of it if I were certain of being shot; for what is death to dishonor?"

Such was the absurd sentiment in Texas at that time, and such as we fear is still too prevalent among civilized nations.

Toward evening a large crowd assembled at the place appointed for the meeting, and so reckless were the people regarding the mighty issue at stake—a human life—perhaps two—that there were all manner of jokes, and not a few wagers were laid upon the result.

At length, as the sun sank below the horizon, the two mortal antagonists appeared on the open space with their ponderous rifles and took their stations, back to back. At the waving of a handkerchief, they began pacing off from each other, both stepping as exactly together as if they were keeping time to the tap of a drum. They completed the distance at the same second, when they wheeled so as to face each other and to fire, as soon as possible.

As they were separated by a goodly distance, as they raised their rifles they paused a moment to make their aim. The pause was long enough for the crowd to glance from one to the other, and note the expression of their faces.

Colonel Morton was calm and smiling; but the smile was a murderous one—far more terrible than the severest scowl could be. Deaf Smith, however, was as rigid and passionless as ever. His profile might have been supposed to be cut in stone, so expressionless was it. The former was attired in the finest and most expensive broadcloth, and the other in smoke-tinted leather.

The next instant the two rifles exploded simultaneously. Colonel Morton, with a smothered shriek, sprang upward and fell to the ground dead. Deaf Smith stood unmoved, and began re-loading his rifle, which being done, he turned and disappeared in the adjoining forest.

Three days afterward, General Houston, accompanied by Deaf Smith and ten other men, made his appearance in Austin, and without further opposition removed the State papers.

Deaf Smith, as I remarked in another place was one of the most extraordinary men in the West. He appeared in Texas at an early period, and resided there until his death, which occurred somewhat over a dozen years ago. He had many ardent friends, but nothing definite, was ever learned regarding his early history. Whether he acquainted Houston with it or not can never be known, for the old hero never enlightened me, or any one else, as far as I can learn, upon the point.

When Deaf Smith was questioned upon the point, he laid his finger upon his lip, and, if pressed his black eyes gave such a rebuke that no one dared to question him further.

Though deprived of the faculty of hearing, nature, as is often the case, seemed to compensate him, with an eye as keen and far reaching as an eagle's, and a smell as perfect as a raven's. He could discern Comanches so far off on the prairies that they were invisible to most experienced rangers, and his friends declared that he could scent an Indian or Mexican when many miles distant.

Gifted in this extraordinary manner, it will be seen that he possessed just the qualities to make him a successful spy; and his services to Houston during the Texan war for independence were invaluable. He nearly always went alone, and very rarely failed to obtain the information he desired. He had many erratic habits. No persuasion could induce him to sleep under the roof of a house. With his blanket wrapped around him, he loved to be out in the open air, under the star-gemmed firmament or the silver moon.

When not engaged as a spy he lived by hunting, and was often absent for months upon his solitary excursions. He was a genuine son of nature, at home only when upon the prairies or in the woods, or when engaged in the thrilling excitement of the hunt, or the more fiery thrill of the clash of arms and the clangor of battle.

Shut out by his infirmities from close companionship with friends, he made the inanimate things of earth his friends. Wherever there was land or water, barren rocks or tangled brakes of waving cane, there Deaf Smith's home was, there he was happy; but in the streets of great thoroughfares of men, wherever there was flattery or fawning, base cunning or craven fear, there was Deaf Smith an alien and an exile.

Strange soul! He hath departed on the long journey, away among those high bright stars which were his night lamps; and he hath either solved or ceased to ponder the deep mystery of the magic word, "life." He is dead; therefore, let his errors rest in oblivion, and his virtues be remembered with hope.

THE COOK'S LOVER.—A few evenings since, as a worthy citizen of Minneapolis was returning home, he was startled, while passing through an unfrequented street, by an agonizing cry, and stopped to learn from whence it originated. His lively imagination pictured some dark and bloody deed as being enacted or perhaps already accomplished, and trembling with ill defined fear, he peered cautiously about, fancying that he saw a ghastly corpse in every object discernible through the darkness. His suspense was of short duration, for the cry was piteously repeated, in accents which dispelled his fears, and excited his curiosity. Advancing cautiously in the direction from whence the sound proceeded, he discovered the innocent cause of his shock to his nervous system. A young man in the last stages of heart disease was gracefully leaning upon the romantic pickets of a door-yard fence, beseeching the feminine gender who presided over the culinary department of an adjacent dwelling, to listen to his impassioned declarations of love and fidelity, and in melting accents, requested the privilege of kissing the dishwater from her lovely hand. "Be mine! thou loveliest of females! Listen, Jane Ann, you heavenly creature, listen to my tale!" To which the heartless maiden replied, "Excuse me, Samuel, I'm indifferent to your tale. You're a shiftless feller, and we could never make both ends meet. I never can be your'n! Farewell!" and gracefully as a cow she passed through the gate and was lost in the darkness. The gentleman left the despairing youth hanging upon the fence and plaintively singing,

"Hast thou no feelings
To see me kneeling."

THIEVES abound in Nevada city.

A BOA CONSTRICTOR AND A PIG.—The following interesting facts illustrative of the great powers of extension of membrane and muscle in the serpent tribe, were transmitted by a gentleman residing in Malay Peninsula. The story also illustrates another fact, that the lower orders in China will eat almost anything.

"On the 14th ult., says the narrator, a boa constrictor was sent for my inspection, which had that morning swallowed a pig belonging to a Chinaman. It would appear that the snake had been seen lurking about the sty several days previous to his last meal, which cost him so dear; he artfully, however, escaped the owner of the swine, who had ineffectually attempted his capture or destruction on these occasions; but on the morning in question, he succeeded in getting entrance into the sty, and, having helped himself to pork, found himself in the dilemma of the weasel in the barn—he could not get out again. The owner came upon him in this state of helplessness, and having called comrades to his assistance, secured the victim, torpid from his vigorous exertions, and brought in triumph into town.

"Now, you will say, there is nothing novel in this; nevertheless, the disparity of size between the carcass of the pig and the jaws and body of the snake struck me so forcibly, and appeared so extraordinary, that I forthwith proceeded to ascertain the exact relative proportions and found them as follows:—The snake was twelve feet nine inches long; transverse diameter of jaw inside, three and a half inches; neck round, nine inches; greatest girth of the body at thickest part, when pig was out, eleven and a half inches. The pig weighed thirty-seven catties and a half, or rather more than fifty pounds, was a good three-fourths grown young sow, and lay apparently without a mark of violence upon its body, not a hair ruffled, legs unbroken; indeed, old Izaac Walton never dealt more tenderly with his frog than the boa had seemingly done with young piggy. Upon closer examination it was, however, discovered that the ribs were broken; yet as the animal remained in its place of sepulchre some hours, sufficient gasses had been generated to rectify the effects of the crushing and restore her to her pristine symmetry of shape. The contrast, therefore, was the more striking; but still it is quite inconceivable how the animal was ever swallowed. How the head of the pig passed the jaws of the snake would, I think, puzzle a conjurer to determine; and how the snake felt, I leave to the consideration of some hopeless dyspeptic. So distorted were the walls of the abdomen by the unusual meal, that the whole pig could be plainly seen through them—they became diaphanous and thin as gold beaters' skin. The vitality of the monster equalled his voracity, for, despite the numberless blows of clubs on its head, for two hours after the pig had been cut out of the abdomen, I saw the tail firmly coiled round a stake. Boa met with poetical justice after the same evening, he descended into the very little less rapacious maws of some Chinese, who looked upon the flesh as something exceedingly piquant and appetising, and eagerly they strove amongst themselves who should possess the largest share of it."

THE THREE DAUGHTERS OF THE BIBLE.—This is the title of an anonymous pamphlet, in which the writer, who professes the Jewish faith, recommends the union of the three Daughters of the Bible,—viz., Judaism, Catholicism, and Protestantism. To effect this, he points to the teaching of the religious practices, quoting in support of that view, the well-known passages of Isaiah i., 2 *et seq.*, Matthew vi., 16, and Deuteronomy xxx., 11, 14, and gives the following religious principles for all creeds:—1. Let every one do his duty. 2. Confess your sins openly and meekly to God, and to God alone. 3. Do not pray in an unintelligible language, but pray mentally. 4. Let your priests never forget that before penetrating into the interior of a family, they should be married. 5. Let the child which has reached the age of thirteen be instructed by his father or the priest on the following points: the unity of God; the immortality of the soul; the voice of conscience; free will; the distinction between good and evil; and ample moral and substantial assistance to those who suffer or are in danger. 6. Let no day of rest, whether Saturday or Sunday, be adopted. 7. Let those who enter the state of wedlock engage, before receiving the priestly blessing, to act conscientiously, and let the first duty of a married couple be charity. 8. And whenever the priest shall learn that one of his brethren is on his death bed, let him exhort him to perform a penitent confession. 9. And, instead of sacrificing a lamb to the Lord, as was done of old, let us sacrifice one of our vices, according as our soul may have the strength to do so. And 10. Let the last day of the year be consecrated to forgiveness, as the only way of obtaining the pardon of God is to acknowledge our sins and repent.

WORKMEN excavating a cellar in Monroe county, Indiana, a short time since, came upon an interesting relic of the "forgotten race." The workmen struck what at first appeared to be a solid ledge of rock, and sitting down to rest, one of their number began to pick at an apparent fissure, when a block of stone nearly two feet square disappeared with a dull thump. The men set eagerly to work and removing the bottom of the pit disclosed a chamber [illegible] feet ceiling, and eighteen by twenty-five feet within the walls, which are of solid, neatly-seamed stone work. Ranged in rows, on rudely constructed platforms, were twelve skeletons, each one with tomahawk and arrow heads at its side, earrings and bracelets, of solid silver lying where they dropped, and piles of what appeared to have been furs in the centre of the platform, each pile crumbling to dust as soon as exposed to light. A number of tools, made of copper, and hardened to equal to the best steel, were also unearthed. Fresh discoveries are constantly being made.

DUTCH FLAT ENQUIRER.

SATURDAY, DEC. 14, 1867.

STORM.—The most terrific storm has prevailed in this place and vicinity during the past week that we remember to have witnessed during our residence in this place. On Sunday night last the wind blew a hurricane and the rains descended in almost solid sheets, and continued until a late hour on Monday morning. We are pleased to learn however, that no material damage was sustained by our people, save the displacement of a few shingles from the house-tops. The track of the railroad above this place was less fortunate: near the Chinese garden the filling under the track washed out keepihg the train from Cisco back, but this did not retard the transportation of passengers or the mails at all, the up trains going up to the point and exchanging and returning, making as good time on that day as any other. The day following the injured portion of the road was repaired and now evrything goes on like clock-work.

THE SENATORIAL FIGHT.—The Democratic members of the Legislature have met in caucus, and from present indications they are likely to keep meeting. The vote of Thursday evening seemes to be but very little changed from that of the evening before. The following is the vote cast on the fifth ballot on Thursday evening: Hoge, 11; Casserly, 15; Temple, 8; Wallace, 12; Rose, 10; Henley, 1; Hartley, 0; Coffroth, 0; Curtis; 5; Sharp, 6, The caucus was edified by speecees from all the aspirants; at present before them, twelve in number, for the Senatorial toga of John Conness. Verily ye Democrats have a mighty job.

BRIDGE.—The citizens of Gold Run, are now engaged in constructing a bridge across the railroad cut at that place. It is to be one hundred feet long divided into four spans of twenty-five feet each, and nineteen feet above the bed of the track. The completion of this enterpsise will be a great benefit to the merchants and others of that place as it will make freighting from the depot, into town much better—the distance being shortened nearly one-half—as heretofore they have been compelled to go above the water companies large resovoir near the depot.

CHANGED.—We hear it reported that the editorial control of the *Stars and Stripes* has changed hands, Mr. Selkirk having retired to the shades of private life. We give this merely as a report, not having received a copy of that excellent journal for two weeks. We suppose now it has changed editors it will affect "city airs" and "cut" its country cousins. How puffed up some people become, to be sure.

THE Mite Society met at the house of Hon. E. L. Bradley on Tuesday night last at which there was a fair gathering of the ladies and gentlemen of our town, reminding one of the good times enjoyed through the agency of this 'society two or three years ago. May their meetings multiply and the good work go on. The next meeting of the society will take place on Christmas night when there will be an opportunity for the young people to "trip the light fantastic."

A RETORT.—Politics are managed in a manner to drive respectable men away.—*N. Y. Gazette.*

These "respectable men" are a set of cowards. What business have they to allow themselves to be driven away? Are the affairs of the country to be tamely abandoned to the thimble-riggers and plug-uglies, because "respectable men" dislike the drudgery of duty.—*Santa Cruz Times.*

The *Gazette* remains in the vocative, together with its clients, the dainty "respectable men" who are to fastiduous for this rude earth and its necessary work.—*S. F. Chronicle*

The "respectable men" are, however, seldom backward in grumbling after a bad move has been made. First they stay away from the primaries and conventions, thereby suffering the "plug-uglies and thimble-riggers" to have their own way. Then after the nominations are made they growl, and put on sanctimonious airs, and prate pharisaically about the "filthy pool of politics." The Republican party is full of such men.—*Idaho Statesman.*

These "respetable men" never come to a realization of their excellence until they are defeated for office, and then get on a huge disgust, like the "independent press" of our State during the last election, and cry out "corruption, fraud," because they were not worthy of being trusted by the people.

THE Union Senatorial Caucus met on Thursday evening last and organized by electing E. L. Pratt, Senator from Sierra, Chairman; F. S. Lardner, Sergeant-at-Arms; Messrs. Heustis and Dixon, Secretaries. Mr. Pratt the Chairman suggested that they throw their votes to John Conness, by way of a compliment, his course in regard to the reconstruction measures being in harmony with the views of the party. Nothing definite was agreed upon. The Caucus adjourned till last evening.

CLEANING IT OUT.—The railroad Co. have a gang of men assisted by a large head of water, engaged night and day, sluicing out the cut at Gold Run. This has always been very troublesome to the company, and they are determined to remedy the defect permenantly.

THE Hale and Norcross Mining Company propose to increase their stock from $400,000 to $1,200,000, and have levied an assessment of $75 per share, or $150 per foot, amounting to the nice sum of $60,000

A LONG TRAIN.—A train composed of thirty seven-cars came down the road as far as Alta on Saturday last. This is said to be the longest train ever on the road.

THE WATER STRIKE.—By the politeness of a gentleman who is extensively engaged in mining at Gold Run we are enabled to present to our readers the following facts in relation to the water strike: Sometime since the miners convened at Gold Run for the purpose of considering the feasibility of asking of the several companies that run water to that place reduction from twelve and a half cents per inch for ten hours to eight cents, and from twenty cents to fourteen cents for twenty-four hours, and for that purpose appointed committees to wait upon the water companies and ascertain whether a reduction would be made. The committees, after discharging the duties for which they were appointed reported that the companies were unwilling to make any reduction, when a resolution was introduced pledging the owners of the different claims in that district not to work after the 20th instant, unless a reduction was made, which passed with but one dissenting voice. Thus the case now stands as we understand it from our informant; a game of "freeze-out" between the miners of the Gold Run District and the water companies. If we have misstated the matter or any of the circumstances with it we will cheerfully make such corrections as may be necessary. The effect of this action upon the community of our adjacent village can be readily seen; the fact of no money being taken out at that place will naturally cause a stagnation of every department of trade, but the greater burden will fall upon the many laboring men and their families, who are entirely dependent upon their daily exertions for the support of themselves and families, a condition of things sufficiently stringent without other and more harrassing incidents; unless, indeed, as we have heard intimated, that the owners of the claims who are interrested, in this strike shall elect to bring in another ditch for the purpose of supplying themselves with this essential element to their operations; which we understand is by no means problematical in the event that the water companies persist in their refusal to reduce the price of water from former rates. Then, the question arises: "where are they to get their supply from? and will the streams they can get—if any—be sufficient to answer the demand which will be made upon the new ditch when built?" We hear that the miners, for this purpose can raise fifty thousand dollars, and that there will be no difficulty in procuring by subscription a like amount, a sum large enough, it is contended to bring in a first class ditch. On the other hand, the ditch owners contend that the cost of running their water to these diggings averages seven cents per inch, and that they would not be justified in selling water at a reduction from present prices from the fact that the outlay of capital from the start has been so great, and the cost of keeping their ditch in repair up to the present time so exhausting that it is nothing but right that they should now be remunerated, a proposition which cannot, we think, be successfully controverted. The miners, however, contend that their ground will no longer yield wages as formerly; that they have worked out the "cream of the joke," and consequently are no longer in condition to pay as formerly, and as a self-preservative are compelled to get a reduction or use no water in their diggings. How the fight will eventually terminate, we are not long-headed enough to know, but as a friend to both parties would counsel moderation, prudence and good feeling, and when the worst comes to the worst, why—compromise.

ILL-NATURED.—The S. F. *Call* notices the contemplated union of the Marysville *Telegraph* and Sutter County *Sentinel* in the following ill-natured manner. The cause probably being the fact that the former possessed more vim, wit and spice in its make-up than the *Call*, and the latter more brains and respectapility:

The Marysville *Telegraph* and the Sutter County *Sentinel* are about to unite their feeble forces. The *Telegraph* used to be a wiry little sheet, but its batteries have been out of order for some time. As for the *Sentinel*, it has been asleep at its post so long, no confidence can be placed in it. Nothing can come of this union but journalistic imbecility.

WASHED AWAY.—The bridge across the Yuba river at Cisco was completely washed away during the last week. The river is said to have overflowed the banks for a considerable distance. We also learn that the stage from Virginia City was washed down the stream carrying the Mail and Express some way.

SONOMA county, the South Carolina of California, has been treated shamefully by the Assembly in the defeat of her candidates, and her Senatorial claims will receive the same consideration in joint convention. We bolt.—Marysville *Appeal.*

We concur. Democrats, as well as republics, are ungrateful. Not even a solitary porter or fire-stoker for gallant Sonoma! This is "the unkindest cut of all." Such is politics.—*S. F. Times.*

LEONARD JEROME'S moustache measures nine inches from tip to tip. As country papers say when they receive specimens of long wool from some noted sheep, if any other buck can do better we shall be happy to record it.—*Marysville Appeal.*

That is no great length for a fellow that owns the fastest horse in the world. We have a gentleman residing in this place whose moustache measures thirty inches, and does not own a horse.

A NEW fire alarm bell at Hartford Connecticut, can be heard twenty miles on a clear day.

LETTER FROM YOU BET.

YOU BET, DEC. 5, 1867.

MR. EDITOR—We are having "piping times" among our hydraulic miners since the late rain, which gave them a plentiful supply of water, and they appear to be not very slow to improve the time in applying it in a practical way in their claims.

Edward Williams is among the first to start up his hydraulic mines on Brown's Hill. Last year his claims paid well, and the prospects are good to do even better this season. He has not made a full run yet.

There are a number of hydraulic claims in full blast, and the "Bluffs," are doing their "level best" to make big money this season, and I think they will surely succeed, if skill in management, and energy can do them any good. Of these claims I will speak more particu- in my next.

In my last I made mention of Mulloy & Co. having run a tunnel through to the old works of Brown Bros., and were expecting good pay. If the amount of amalgam that one can see piled up in their mill is any indication of good pay, they have certainly found it. On Saturday of last week they cleaned up the snug little sum of seven hundred and fifty dollars from the coppers alone after running the mill only twenty hours, and you must bear in mind that not more than one-half of the gold will pass out of the battery on the coppers. The best pay in this claim is found about one foot from the bed rock, the rock itself scarcely paying the mens' wages who are employed to clean it up. Immediately over the bed rock is a layer of sand soft and easy to work, and from one foot to fifteen inches in thickness, over which is found a strata of gravel which contains the gold. All, or nearly all of the cement claims about here have found the best pay on the rock, but from the line of Brown's claims the rock makes a dip to the north and the gold keeps on a level with the rock from its highest elevation. Judge Brown is taking out unusually large pay. If I mistake not in my last I stated that he was taking out from $1,500 to $2,000 a week but since then he has taken out as high as $5,000 in 5½ days' run, and at no time less than $4,000 a week. The Judge is taking out dirt about four feet high, and finds gold in more or less quantities throu h all of it; and always where the most gold is found they find the heaviest stratas of sand. In my next I will give you a few items about Collins & Son, Neice & West, and the Hydeliff claims all of which are as much entitled to a hearing by me as any of which I have made mention, from the fact that they are claims of no ordinary importance. But time will not permit me to do so now, as I have strong inclination to insert my pen in politics, and show you what a natural taste a Democrat has for an office: This morning the "Bamboo Chiefs" of the old Democratic party, started for Sacramento to have a hand in the spoils of office. Among the most eager to have a finger in the pie, is our old revolving friend Dr. Noble Martin, who some three years ago was strongly in favor of hanging every rebel in the land, but by some strange movement of the Democracy the doctor was placed on the Democratic ticket for State Senator, and then was the time when he pleadingly called on the "good Copperhead" votes to help elect him, but as good luck would have it that true Union man, Dave Belden, of Nevada, beat him, and the Doctor has been obligded to content himself with selling his marvellons pills until the present time, when he imagines he can see a plain road open for him to go to San Quintin, as resident physician. G. S. Brown has also gone down to hold counsel with them. It must be quite a consolation to the hungry souls to have an opportunity present itself, and give them a chance to get a square meal at the public crib.

WASHTENAW.

COUGHING UP A KNIFE BLADE.—The Breadstone *Illinoisian* states the following remarkable case:

A remarkable effort of nature to relieve the human body of an obstruction, has occurred in this vicinity, which should attract the attention of scientific men. About twelve years since, James Thompson, a wealthy farmer of this county, was waylaid by rufflans, and in the encounter was stabbed in the back under the shoulder blade. He was treated by physicians, and in a short time the wound healed over. A few years since he begun to cough, and since that time had all the appearance of a person under the influence of consumption, to such an extent that his friends despaired of his recovery. About three weeks since, in a violent fit of coughing, he threw up a piece of the knife blade with which he was pierced, about an inch and a half in length, and about an inch in width. It had passed, during that interval, from his back into his stomach, through his lungs, and upward through the bronchial tube. A more wonderful freak of nature we have never read in books. Thompson is now doing well, and bids fair to live as long as any other man.

THE Cubans have a curious custom in regard to vaccination. Instead of calling in a doctor notices are printed in the newspapers that at such a time the operation will be performed at the Church of Monserrate, ar any other, as may be specified.

SARSAPARILLIAN!

(PREPARED FROM VACUO.)

The Curative Principle of Sarsaparilla enters largely into the composition of

R. R. R.

RESOLVENT.

One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.

One Bottle will Purify the Blood, and Expel Corruption from the Body!

So swift is this remedy in entering into the circulation, that it has been detected in the blood and urine in six minutes after it has been taken.

1 BETTER THAN 10

R R. R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size, bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo,) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The Inert matter that enters so generally in the large bottle mixtures and prepared under the officinal or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eyes bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating Resolvent, if used in any of the following named complaints, will positively cure the patient:

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

So swift is this remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken; by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. RELIEF rubbed on the spine, &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgative medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c., or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Relief, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

CONSTABLE'S SALE.—By Virtue of an Execution to me delivered and directed on the 7th day of December, A. D. 1867, issued out of the court of C. J Brown, a Justice of the Peace in and for Townsip No. 4, County of Placer and State of California, on a judgement rendered in said court on the 7th day of December A. D, 1867, in favor of L Arnstein & Co. and against S. Heyman for the sum of two hundred and ninety-nine ($299 00) dollars, and for costs of suit taxed at twenty two ($22 25) dollars and 25-100 dollars, I have this day levied upon and will expose to public sale, to the highest bidder for cash, in front of the Orleans Saloon in Dutch Flat,

On Monday, January 6th, 1868,

THERE will be preaching in the M. E. Church on Sunday the 15th, at a quarter to eleven A. M. and at 7, o'clock P. M. Subject in the evening, "The Intermediate State, of the Dead," the first of a series, of discourses on this interresting subject.

PREACHING at the Union Church to-morrow morning at the usual hours. In the evening the third lecture of a series will be delivered.

REVERIES OF A BACHELOR.

It was our fortune to obtain, a few days since, the following gloomy extract from the journal of a bachelor, who was formerly a resident of that solitary and snowy region, Meadow Lake:

"The lonely bachelor has no communion within his dingy apartments, save the flickering candle, which silently overlooks his pensive musings and the ideal fantastic forms which hover round the angles of the room—suspended upon the thread of his imagination. The crackling fire breaks in upon his silent dreams, and the smoke ascends, light as the illusory phantom, hope. When moving in society man has a place value. His use and worth depend upon the number of digits of his kind at the right. Standing alone he has no value higher than a cypher. Alas, for Excelsior! Thy beauties are again robed with a mantle of snow. The genial sun gives but transitory smiles upon thy grandeur; and the silvery moon pales her accustomed light upon the clouds of snow which hover round and shroud the spirit with melancholy. Dark and drear the clouds move slowly along. The chill, dread hour of night arrives, and lonely to his dormitory dark and damp goes the victim whose fortune binds him upon the mountain's crest where every floating cloud showers down myriads of blue devils to romp in battalions o'er his troubled brain. The dirge like winds beat upon the frail tenement and slumber is broken by dreams more horrid as they are more impressive than waking visions. The chamber sways before the surges and the startled sleeper springs from his couch lest another moment finds him buried beneath the fragments of the swaying walls. How deep the picture of melancholy. Were it but penciled the *Raven* would lose its gloom, *Erebus* and *Hades* their accustomed terror. Their dark halls and unsightly apparitions would be clothed with inviting splendor when compared with the hideous and appalling darkness which supremely reigns around my lonely couch during the frightful season of storms."

"Oh solitude where are the charms
That sages have seen in thy face,
Better dwell in the midst of alarms
Than reign in this horrible place."

EXTENSION OF THE RAILROAD.—The Virginia *Trespass* of December 4th says: We are rejoiced to learn, as we do on unquestionable authority, that the Central Pacific Road is to be worked an additional twenty-four miles as soon as the cars can be put on. From the State line, four miles above Crystal Peak, to the head of Coldstream, is a section of road all ready to receive the stock, and which, in fact, has been worked by the construction force, for the use of the company only. The order from Sacramento now is to work this section of road. This leaves five miles of blank to be traversed by the stages and teams. Over this five miles, work is going on with all possible pressure of force. The workmen are as thick along the line as it is possible for them to work to advantage. The track goes into place at the rate of nearly a mile a day, though some of the work is heavy. At this rate, and making allowance for accidents, if we have no severe storms on the mountains within that time we may look to see the lither end of the complete rail connection at the State line in two weeks from to-day, and at Crystal Peak, four hours awry, by New Year's Day.

WHAT IT WILL COST.—Grant's report on the estimate of the expenses of the War Department for next year is $70,000,000. The strength of the regular army will be 54,000. The report is silent regarding the continuance of the Freedman's Bureau, but indorses all the military commanders in enforcing the Reconstruction act. It says Sherman is of the opinion that peace with the Indians is firmly established.

IF IT DOES NOT TAKE FIRE.—The Nevada *Gazette* says:

In the trial of Jerrold yesterday, Moriarety, the prosecuting witness, was asked by the counsel for the defense how much whisky he could drink without getting drunk. The witness answered, that of such whisky as they kept at Red Dog, he could drink about a quart, if it didn't take fire.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and heatlh of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he in sist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occiden tal Hotel, San Francico. REDINGTON & O.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Floating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

S.T-1860-X.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease,"

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendeny of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home,
Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our private stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and dealers throughout the world.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & CO. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific coast

MEXICAN
MUSTANG
LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,

DUTCH FLAT ENQUIRER.

A WOMAN'S REVENGE.—The Court Journal, describing Prince Napoleon's ball, says:

"The Princess Clotilde is attired, as usual, without the slightest pretensions to extravgance of fashion, and yet looking the most aristocratic *grande dame* of the whole company. Her dress was of plain pink tulle, the skirt full trimmed with rich garlands of bright green leaves. None of the jewels belonging to the Italian treasuries, about which so much absurd nonsense has been uttered, but her neck was adorned with emeralds as big as the staring eye-balls of the green-eyed monster, while her brow was encircled with a simple wreath of green leaves, which, casting a mysterious shadow over her features, added to the pensive melancholly expression they always bear. The Empress was standing near, her sweetly soft style of beauty contrasting strongly with the somewhat hard and unfinished contour so characteristic of the Carignans. Her majesty's dress was of sea green tulle, puffed, looped, and fringed with diamonds. The exact concordance of the shade of green and pink adopted for the two dresses was observed by the artist-connoisseurs to be so remarkable that it was agreed amongst them that the *conturieres* must have conferred together before hand. One of our great portrait painters was observed to contemplate the amalgamation of tone and color with the greatest interest. 'You are thinking of a picture,' said a *confriere*, rousing him from his reverie by a gentle tap on the shoulder. 'No, indeed; I was thinking of the Empress Josephine.' 'Ah, yes, young days, young days!' returned the other, maliciously. 'Pooh, pooh! I was just then at St. Cloud, and and before me was standing the lovely Josephine and the still more beautiful Princess Pauline. The pair of beauties could never agree. The reception was given by order of the Emperor for the express purpose of a recognition and a reconciliation between them being acknowledged. The Princess Pauline's entrance caused a great sensation, and we all pressed forward to view the effect produced upon the Empress. The latter, with imperial grace, smiling sweetly, rose to lead her rival to a seat. The two ladies shared equally the admiration of the company as they stood side by side; but presently, when seated, the beauty of the princess seemed suddenly to fade—to grow dingy as it were—her skin to assume a yellow aspect, and her hair, arranged with turquoises and blue ribbons, to lose its lustre. To add to the evil effects, the princess herself began to grow fretful, and to look around with anxiety, and finally, as if overcome by depression, she retired, out of humor with herself and all besides. The next day, at the sitting, the Empress inquired what I thought of Pauline's beauty. 'Splendid when standing,' said I, daubing away at my background with the greatest agitation; 'but she should never sit down when her dress is of light satin—at least in a green veivet *fauteuil!*' Thereupon, to hide the confusion occasioned by the consciousness of my own impertinence, I brushed away more valiantly than ever, dodging behind my canvass to await the reprimand I felt sure was comming. But a silvery laugh, like the pearly tinkling of the waterfall visible from the window of the apartment wherein we were seated, was the first signal given that my observation had been understood. *'Ah! ces coquins d'artistes!'* exclamed her majesty, her eyes glistening with fun and mischief. 'And so you found me out!' It was a harmless woman's vengance; but I could not help thinking that the princess would have prefered an open duel with swords or pistols to the frightful punishment she had undergone."

AS AN original expression of heavy grief, we doubt if any more touching has been read than the following, of a crushed heart in Star city, Nevada. Mrs. E—, of that place, an eccentric old lady, recently rushed into the room of a relative, and without waiting for the usual salutations, said: "Well, John's dead." (Her husband)—Dead! Is it possible? "Yes; dead. Died last night! Want you all to come to the funeral. The Masons and Odd Fellows are going to turn out, and we shall have a beautiful time." Deaths are of rare occurrence in the settlement, and of course everybody went to the funeral. Next day somebody remarked to the old lady that there was a large turnout. "Yes, indeed, there was," she replied; "but I didn't enjoy myself as well as I have at some funerals, the horses cut up so."

NEWSPAPER FOR ALASKA.—The San Francisco *Times* says, we learn that Mr. E. F. Bean, of the Nevada *Gazette*, is likely to become the pioneer newspaper man in the new Territory of Alaska; he will start a weekly paper there some time about Christmas or New Year's, ensuing, to be called the Alaska *Gazette*. Postmaster Kincaid, of that Territory, suggests that the paper should be called "The North Bean Pole *Gazette*, or the Frozen Banner of *Freedom*;"—a name which would be very suggestive, though rather inconvenient on account of length.

IT is represented that the liberated Russian serfs all over the Kingdom are making good use of their liberty and are rapidly rising in the scale of human existence. The masters, though at first dissatisfied with the Imperial ukase, are becoming convinced of its wisdom and justice, and master and slave now live together upon as harmonious terms as freemen.

THE editor of the Bangor, Me., *Whig* says he knows of but one man who is perfectly happy and contented, and he is an inmate of the poor house of that city.

A MAN named Reed, employed in the city engineer's office at Oakland, has just received notice that he is heir to $225,000 in England.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, s, palpitation of the heart, irritability, nervousnes extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

A CARD FROM THE AMERICAN WATCH COMPANY

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamelled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, flental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates billous disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets, to

108 MONTGOMERY STREET,

Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seatof the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

PRIVATE Medical INSTITUTE,
Established by
DR. J. C, YOUNG, IN 1850,
For the cure of all Private Diseases and
ALL FEMALE COMPLAINTS.

CONSULTING OFFICE,
536 WASHINGTON STREET,
SAN FRANCISCO,.....CALIFORNIA.
NO CURE, NO PAY.

Consultation by letter, or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricordis to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Private Medical Institute,
No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

Grover & Baker's
ELASTIC STITCH
FAMILY
SEWING MACHINES,
Are the best in Use,
FOR THE FOLLOWING REASONS:

They are more simple and durable easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other. They sew all fabrics from two common spools, require no re-winding of thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip.

They Stitch, Hem, Fell, Cord, Bind, Tuck, Quilt, Gather, Braid, and Embroider. No other machine Embroiders, as well as Sews perfectly.
